

PROVEG ENGINEERING AND FOOD PROCESSING PVT. LTD.

<https://provegengineering.in>

“We believe in judging our success by our ability to meet the expectations of our customers and Principal's and work with the aim of providing global technology with local support.”

About us

We are a professional business entity engaged in designing, engineering, manufacturing, supplying, erecting and commissioning of an array of vegetable and fruit processing pretreatment line, hot air dryers, vacuum freeze dryers, IQF, extruded food machineries, baked food machines, candy, chocolate machines, industrial mixers, nut and grain shelling, hulling , grading, sorting and cutting machines, packaging solution. Our expertise resides in turnkey plants which we can assemble at client's site with ease.

From humble beginnings in year 2006 as Techno Engineers & consultants, now at PROVEG we have emerged as a strong partner to our customers serving them with need based solutions at affordable prices while never compromising on the quality of our equipment

Headquartered in Pune, we have a local presence in Chennai. In addition, we have a well-equipped manufacturing & testing facility on the outskirts of pune to give our customers the opportunity to test and validate their products with our solutions. Our manufacturing facility is also the authorized unit for manufacturing Shakers from Key Technologies.

Our strengths

- End to end solutions for food processing
- Highly skilled after sale service support
- 15 years of experience in automation of various International & Regional snack food products.
- We provide full solution right from procurement up to delivery of equipment to your doorstep, commissioning, handovering and backing it with technical support for life long
- Fully automatic solution for our machines

Table of Contents

Roasters	4
1) Roasters Machine	5
2) Peanut / Cashew / Almond Roaster Machine	6
3) Cheese Ball Roaster Machine	7
4) Mumra Roaster Machine	8
5) Jeera / Dhana / Coffee Roaster Machine	9
6) Roaster Line	10

Roasters

1) Roasters Machine

Technical parameters

Type	HY-C100
Voltage	440v/50Hz
Heating Type	Electric hating
Mixing Power	1.5KW
Heating Power	30kw
Capacity	100-120kg/h
Dimension	2200*1390*1340mm

Characteristics

1. Using the electromagnetic heating, no pollution;
2. Improve the work efficiency to reduce energy waste
3. Electromagnetic heating heat source is not easy to damage, long service life
4. Scope of baking: seeds, peanuts, sesame, etc

2) Peanut / Cashew / Almond Roaster Machine

General

Peanut roaster machine can suit for roast many oil seeds, like peanut, soybean, sesame, vegetable, etc oil seeds. after use this the oil seed is more easier got oil from oil press machine.

Feature

1. Easier to use and operate. just use little power, save cost, have high capacity.
2. Peanut roaster machine can suit for roast many types seed.
3. Lower price, high quality. Manufacture.

3) Cheese Ball Roaster Machine

General

These roasters are manufactured using quality tested raw materials that is sourced from trusted vendors. To deliver a flawless range at clients' end, our roasters undergo various stages of quality checks by our quality controllers.

Technical parameter

Capacity	200 kg/hr- 700 kg/hr
Power:	3 hp to 5 hp
Material	Stainless Steel

4) Mumra Roaster Machine

General

The automatic roasting machines that are fabricated using qualitative material sourced from reliable vendors. These have gained huge appreciation in the market for their durability, excellent loading capacity and sturdy construction.

5) Jeera / Dhana / Coffee Roaster Machine

General

This Machine use Gas/ fuel use the new type heat pipe as heat conduction medium taking advantage of the cycling of hot air the pipe ,the roaster can exposure the heat energy to the baked object, The treponemata continuously motivate the backed object in the backing process, then baked object can get the heat equally, thus we can get the delicious food.

This Roaster Machine is roasting Murmura, Peanut, Cheese Ball, Puffed Ring, Kurkure, Poha, Dhania, Almond, and cashew.

6) Roaster Line

General

The machine has 3 rotating drums inside the oven to hold and keep the products rolling all the time during roasting process. So that the roasting result would be unique and even. The drums are not drilled with holes in order to hold products and salts as heating medium

Features

- Standard Capacities: 50/100/200/300 and higher kg/hr. and even higher capacities
- Complete SS 304 construction except for the bought out items.
- Hygienic design
- Food grade belts and other accessories.
- Robust and reliable design
- Uninterrupted process
- Energy efficient and environmental friendly technology.
- CIP cleaning in place technology
- Excellent oil management.

Looking forward to the future, our company will take "build the international first-class enterprise, and create world famous brand " as its objective, forge ahead and continuously innovate, and provide perfect solution for global food processing
